

FOR IMMEDIATE RELEASE: JUNE 26, 2017

**JOHN BROOKS COMPANY LIMITED
ACQUIRES
HURRICANE PUMP DISTRIBUTION INC.**

Toronto, ON June 26, 2017 – John Brooks Company Limited, experts in pumps, spray nozzles, filtration equipment, valves, and custom engineered systems has acquired Hurricane Pump Distribution Inc.,

“This acquisition will create greater customer value through a broader product offering, additional solutions and technical expertise relevant to the Canadian Industrial Manufacturing and Processing Sectors”, said Gord Bell, President of John Brooks Company Limited.

Hurricane Pump Distribution Inc was founded in 2003, and has locations in Toronto and Montreal, where they are focused on serving the industrial and sanitary/hygienic markets with the highest quality pumps and process equipment.

About John Brooks Company Limited

Founded in 1938, John Brooks Company Limited has been providing their customers with high quality, competitively priced products as well as technical design and engineering support services which consistently and continually meet their needs and deliver superior value. The Company’s commitment to continually refining their product offering based on the customers’ ever-changing needs has made them the supplier of choice to the Oil and Gas; Chemical; Food and Beverage; Pharmaceutical; Pollution Control; Steel; Pulp and Paper; Mining and Minerals; General Industrial and Municipal markets.

The Hurricane Pump operations in Concord will be located at the John Brooks Mississauga Facility and will be operating as JOHN BROOKS COMPANY LIMITED.
