

WIPE OUT FLUSHABLES & UNCLOG YOUR BUDGET

ARE FLUSHED WIPES, GLOVES, MASKS OR OTHER SOLIDS & DEBRIS CLOGGING THE PUMPS & PIPING IN YOUR COLLECTION OR WASTE TREATMENT SYSTEMS?

VAUGHAN CONDITIONING PUMPS:

Vaughan Conditioning Pumps are Submersible Chopper Pumps mounted on a portable stand and fitted with a high-velocity mixing nozzle. The conditioning pump recirculates the contents of the wet well, chopping and mixing to produce a homogeneous mixture that is more easily pumped out. Floating mats are removed and solids that have accumulated on the floor are re-suspended. As the pumps are mounted on a portable stand, they can easily be used in multiple applications at a single job-site, facility or municipality.
