CELEROS FLOW TECHNOLOGY APPOINTS JOHN BROOKS AS NEW SALES AGENT FOR CLYDEUNION PUMPS IN CANADA

01/31/22

Itamar Vandelli, Celeros FT Sales Director for
OE Pumps Americas

Gord Bell, President
John Brooks Company Limited

We are delighted to announce that John Brooks Company has been appointed as sales agent for our ClydeUnion Pumps brand for new equipment in Canada. John Brooks will act as a seamless extension of our global network, offering our Canadian customers the engineering expertise and support they need to specify the right pump for their needs.

Itamar Vandelli, Celeros FT Sales Director for OE Pumps Americas, said: “Our two companies share the same vision of providing high quality flow control solutions that are carefully matched to the customer’s application requirements and which will deliver long and reliable service.”

Gord Bell, President of John Brooks, responded: “We are delighted to be representing the ClydeUnion Pumps brand, which has a long and proven history of excellence in the field. We look forward to supporting existing and future Celeros FT customers with their flow control requirements.”

John Brooks Company has bases in Quebec, Ontario, Alberta and British Columbia. Under the new agreement, they become non-exclusive agents for our ClydeUnion Pumps portfolio for new equipment across the Canadian region. They will focus on supporting customers in our chosen markets of oil & gas, conventional and renewable power, chemical processing, water and mining.
